GOAL

To obtain a web design position where I can work with other experienced and innovative individuals who are interested in separating themselves from the ordinary. Striving to incorporate modern technologies and starting trends.

SKILLS

Photoshop, Illustrator, InDesign, Dreamweaver, Flash, AS3, XHTML, CSS.
Proficient in both Mac and Windows platforms;
Educated in digital and traditional SLR photography.

EXPERIENCE

Interface Multimedia - Apr 2007 to Mar 2009

Interactive Designer

Create all site maps, portal designs and HTML emails. Additionally, responsible for creating logo, dynamic web sites, and touch screen kiosk designs. Create all flash animations, consisting of slide shows, screen savers and small interactive elements.

Intersoft Corporation - Aug 2006 to Apr 2007

Web Designer / Graphic Designer

Generated all web designs and graphics for new and existing clients. Coordinated the design and development of web sites, logos, magazine layouts, and marketing collateral. Planned and organized updates to internal and client sites using strategies like site maps and story boards.

Hirshorn Zuckerman - Nov 2003 to Mar 2004

Web Intern

Managed client web sites through targeted updates and modifications. Assisted with web site production, optimization, and testing. Gained expertise in manipulating database driven web sites on the fly per client request.

Freelance 1999 - Present

Designer / Developer

Create all aspects from design to development of projects at reblis.com. Developed a good eye for composition so that logo, color and negative space all work together. Incorporating social media such as twitter into sites to reach a wider audience. Design and develop emails to utilize a modern marketing approach. Created designs to be compatible with an existing CMS.
